

MONTHLY UPDATE ON STANDARDIZATION WORK IN CHINA, JUNE 2012

SAC news

SAC announce one Chinese specification on technology interoperability of FDT/DTM and EDDL device integration passed voting by IEC/SC65 became IEC/TR 62795 Ed.1.0: Interoperation Specifications of the FDT/DTM and EDDL.

SAC calls for comments GB/T20851.1-2007< Electronic toll collection—Dedicated short range communication—Part 1: Physical Layer >

The deadline for comment is 20th July. For more information please visit:

http://new.sac.gov.cn/gybzyb/zxtz_843/201206/t20120622_119945.htm

SAC calls for comments GB/T20851.2-2007< Electronic toll collection—Dedicated short range communication—Part 2: Data Link Layer>

The deadline for comment is 20th July. For more information please visit:

http://new.sac.gov.cn/gybzyb/zxtz_843/201206/t20120622_119946.htm

SAC calls for comments GB/T20851.3-2007< Electronic toll collection—Dedicated short range communication—Part 3: Application Layer>

The deadline for comment is 20th July. For more information please visit:

http://new.sac.gov.cn/gybzyb/zxtz_843/201206/t20120622_119947.htm

SAC calls for comments GB/T20851.4-2007< Electronic toll collection—Dedicated short range communication—Part 4: Equipment Application >

The deadline for comment is 20th July. For more information please visit:

http://new.sac.gov.cn/gybzyb/zxtz_843/201206/t20120622_119948.htm

SAC calls for comments GB/T20851.5-2007< Electronic toll collection—Dedicated short range communication—Part5: Test methods of the main parameters in physical layer >

The deadline for comment is 20th July. For more information please visit:

http://new.sac.gov.cn/gybzyb/zxtz_843/201206/t20120622_119949.htm

SAC calls for comments GB 23864-2009 <Fire Stop Material>

The deadline for comment is 20th July. For more information please visit:

http://new.sac.gov.cn/gybzyb/zxtz_843/201206/t20120621_119939.htm

SAC calls for comments GB/T18623-2011<Geographical indication product-Zhenjiang vinegar>

The deadline for comment is 15th July. For more information please visit:

http://new.sac.gov.cn/nyspbzb/zxtz_836/201206/t20120615_119910.htm

SAC calls for comments on working plan on 14 national standards related spacecraft

The deadline for comments is 27th June. For more information please visit:

http://new.sac.gov.cn/zhywqlb/zxtz_823/201206/t20120620_119933.htm

SAC released a working plan on 58 national standards to relevant standardization bodies and TC

They are MIIT, China Textile Industry Association, China Steel Industry Association, China Petroleum and Chemical Industry Federation, China Building Material Council, China Nonferrous Metals Industry Association, National Standardization TC on Energy Foundation and Management, National Standardization TC on Coal, National Standardization TC on Petroleum Products and Lubricants and National Standardization TC on Ceramics for Daily Use. For more information please visit:

http://new.sac.gov.cn/zhywqlb/zxtz_823/201206/t20120612_119688.htm

SAC calls for comments on establishment on National Standardization TC on Beidou satellite navigation

The deadline for comments is 2th July. For more information please visit:

http://new.sac.gov.cn/zhywqlb/zxtz_823/201206/t20120601_111638.htm

SAC calls for comments on national standard on Tapioca Starch

The comments should be sent to China General Chamber of Commerce The deadline for comment is 6th July. For more information please visit:

http://new.sac.gov.cn/nyspbzb/zxtz_836/201206/t20120606_111665.htm

MIIT news

MIIT calls for comments on 4 sector standards and 30 national standards in Electronics industry

The deadline is 5th July. For more information please visit:

<http://www.miit.gov.cn/n11293472/n11293832/n12845605/n13916913/14675450.html>

MIIT calls for comments on 39 industry standards and one national standard in communication sector

The deadline is 28th June. For more information please visit:

<http://www.miit.gov.cn/n11293472/n11293832/n12845605/n13916913/14661988.html>

MIIT calls for comments on administration measures of internet information services

This new version has updated points compared with new version issued in 2000. The revised points are as follow:

- Specific license approval on forum, blog or micro blog
- Perfect access license of create a website
- Strengthen the safety management responsibilities of relevant service provider
- Strengthen the record retention obligations of relevant service provider
- Regulate registration system for true identity of the user
- Strengthen the protection of personal information
- Standardize the behaviour of supervise and inspect of government departments

The deadline is 6th July. For more information please visit:

<http://www.miit.gov.cn/n11293472/n11293832/n12845605/n13916913/14649264.html>

MIIT calls for comments on Administrative Measures on Controlling the Pollution of Electrical and Electronic Products (China RoHS)

Compare with old version of China RoHS issued in 2006, there are several changes as follow:

- New version gives a clear scope of Electrical and Electronic Products, which are below AC 1500v, DC 1000v
- Restricted substances : Pb and its compounds、 Hg and its compounds、 Cd and its compounds、 Cr(VI) and its compounds 、 PBB、 PBDE
- In new version, it regulate that State will establish RoHS conformity assessment system for products listed in RoHS catalog, not like in previous version clearly pointed CCC system.
- In new version, it still use catalog control for electrical and electronic products.

The deadline is 10th July. For more information please visit:

<http://www.miit.gov.cn/n11293472/n11293832/n12845605/n13916913/14645315.html>

MIIT calls for comments on Administrative Measures on strengthen the mobile terminal into to net work

The deadline is 30th June. For more information please visit:

<http://www.miit.gov.cn/n11293472/n11293832/n12845605/n13916913/14641984.html>

MIIT released 14 standards related to civil explosives industry

- GB 28286-2012 general technical requirements of industrial explosives
- WJ 9072-2012 safety management procedures on site production of mixed explosives
- WJ 9073-2012 safety technical conditions of truck for civilian explosives
- WJ /T9071-2012 testing method on no detonator sensitivity of industrial explosives minimum initiation does

- WJ /T9070-2012 safety requirements on position navigation terminal using satellite of industrial electric detonator transporters
- WJ /T9069-2012 technical conditions of industrial explosives drug volume automatic packaging machine
- WJ /T 9074-2012 testing method on industrial detonators impact sensitivity
- WJ 9075.1-2012 civil explosives enterprise security checking method- checking table method- Part 1: general management
- WJ 9075.2-2012 civil explosives enterprise security checking method- checking table method- Part 2: production enterprise integrated security management and overall security conditions
- WJ 9075.3-2012 civil explosives enterprise security checking method- checking table method- Part 3: industrial explosives production line
- WJ 9075.4-2012 civil explosives enterprise security checking method- checking table method- Part 4: industrial detonators production line
- WJ 9075.5-2012 civil explosives enterprise security checking method- checking table method- Part 5: industrial rope pyrotechnics production line
- WJ 9075.6-2012 civil explosives enterprise security checking method- checking table method- Part 6: oil and gas wells and other blasting materials production line
- WJ 9075.7-2012 civil explosives enterprise security checking method- checking table method- Part 7: sale enterprise

For more information please visit:

<http://www.miit.gov.cn/n11293472/n11293832/n11293907/n11368223/14659970.html>

MIIT released 464 industry standards, including machinery sector, light industry sector, textile industry, metallurgy industry, nonferrous metal industry, chemical industry, petrochemical industry, building materials industry, drug equipment, package sector, gold sector, shipbuilding sector, civil explosive sector, electronics and telecommunications industry.

For more information please visit:

<http://www.miit.gov.cn/n11293472/n11293832/n12845605/n13916898/14662400.html>

MEP news

MEP calls for comments on technical requirement for environmental labelling products-mosquito coils

The deadline is 20th July. For more information please visit:

http://www.mep.gov.cn/gkml/hbb/bgth/201206/t20120626_232384.htm

MEP calls for comments on 6 environmental protection standards

- soils and sediments distilling total metals by microwave acid digestion method
- soil quality-determination of cyanide-spectrometric method
- solid waste-determination of organic phosphorous pesticides by gas chromatography

-solid waste-determination of Cr (VI)-alkaline digestion-flame atomic
-soil and sediment-determination of phenol compounds-gas chromatography method
-solid waste-determination of phenol compounds-gas chromatography method
The deadline is 9th July. For more information please visit:

http://www.mep.gov.cn/gkml/hbb/bgth/201206/t20120614_231618.htm

MEP calls for comments on revision of GB 14762-2008 Limits and measurement methods for exhaust pollutants from gasoline engines of heavy-duty vehicles (III IV)

The deadline is 14th June. For more information please visit:

http://www.mep.gov.cn/gkml/hbb/bgth/201206/t20120626_232384.htm

MOST news

MOST calls for comments on the “12th Five-Year” Special Plan for the Technical Standards

http://www.most.gov.cn/tztg/201206/t20120608_94904.htm

MOST calls for comments on the “12th Five-Year” Special Plan for technological development on navigation and Location-Based services, “12th Five-Year” Special Plan for technological development on broadband network, “12th Five- Year” Special Plan for technological development on China cloud.

The deadline is 27th June. For information please visit:

http://www.most.gov.cn/tztg/201206/t20120608_94904.htm

MOST released “12th Five-Year” Special Plan for technological development on national public security

http://www.most.gov.cn/tztg/201206/t20120608_94904.htm

MOHURD news

MOHURD released high-speed maglev transportation construction standards (Trial)

It will be implemented on 1st September 2012.

For more information please visit:

http://www.mohurd.gov.cn/zcfg/jsbwj_0/jsbwjzde/201206/t20120625_210348.html

MOT news

MOT released the Notice of the Standardization Program for Transportation in 2012

For more information please visit:

<http://www.moc.gov.cn/zhuzhan/zhengwugonggao/jiaotongbu>

MOH news

MOH released “12th five-year” planning on national food safety standards

For more information please visit:

<http://www.moh.gov.cn/publicfiles/business/htmlfiles/mohwsjdj/s3593/201206/55112.htm>

MOH released 11 national food safety standards related to food additives

For more information please visit:

<http://www.moh.gov.cn/publicfiles/business/htmlfiles/mohwsjdj/s7891/201206/55071.htm>

MOH: Call for Comments on Basic Requirements for Licensing of Radiation Diagnosis and Treatment

The deadline is 29th June. For more information please visit:

<http://www.moh.gov.cn/publicfiles/business/htmlfiles/mohzcfgs/s3574/201206/55077.htm>

MOH released 3 compulsory industry standards

-WS 379-2012 the diagnosis of taeniasis solium

-WS 380-2012 the diagnosis of paragonimiasis

- WS 381-2012 the diagnosis cysticercoids cellulosa

They will be implemented 15th October 2012. For more information please visit:

<http://www.moh.gov.cn/publicfiles/business/htmlfiles/mohzcfgs/s7850/201206/55060.htm>

CNIS news

CNIS: Mr. Ma Lin cong, new president of CNIS

Mr. Ma Lincong, previous vice president of CNIS has taken the position as new president of CNIS. He is in charge of department of Human Resource, sub institute of Standardization Theory and Education, sub institute of Visual Health and Protection of Standardization in CNIS.

CCSA news

CCSA calls for comments on series of ICT standards

The China Communications Standards Association CCSA released a series of calls for comments on the following standards and technical reports:

-Mobile internet malware description format (deadline: 15th July)

- The flame retardant polyolefin heat shrink tubing for communication (deadline: 6th July)

-Digital communication twisted pair cables with polyolefin insulation level (deadline: 6th July)

-Communication cables –physically foamed polyethylene insulation leaky coaxial

cable-Part 1: coupling (deadline: 6th July)

-Technical requirements on node equipment of ASON –Part 2: technology requirements on based OTN node device of ASON (deadline: 6th July)

-technical guide of power supply and energy-saving in room environment-Part 5: Airflow (deadline: 6th July)

-Technical requirements of the SIP protocol support for presence and instant messaging services (deadline: 4th July)

-Technical requirement of soft-switched network to support IPV6 (deadline: 4th July)

-National standard on communications multimode fiber- Part1 category A1 multimode fibers (deadline: 2nd July)

-Technical requirements of communication resource management system functional-Part 1: network and business resource management (deadline: 27th June)

-Mobile phone reading service- technical requirements and test methods of client terminal
