

MONTHLY UPDATE ON STANDARDIZATION WORK IN CHINA, MARCH 2012

SAC news

SAC calls for comments on revision of two standards related to properties of washing detergents

Standards:

- Test methods for glycerine
- Determination of detergency and cycle of washing property for laundry detergents
- The deadline for comments is 26th April. For more information please visit:

http://new.sac.gov.cn/gybzheb/zxtz_850/201203/t20120329_105995.htm

SAC calls for comments on revision of four standards on wires

Standards:

- Winding wires—Test methods—Part 6:Thermal properties
- Enamelled round winding wire—Part 1:General requirements
- Paper covered wires - Part 2: Paper covered round wire
- Paper covered wires - Part 3: Paper covered rectangular copper wire

The deadline for comments is 14th April. For more information please visit:

http://new.sac.gov.cn/gybzheb/zxtz_850/201203/t20120314_102712.htm

SAC calls for comments on the abolition of seven national standards on parathion

The deadline for comments is the 7 of April. For more information please visit:

http://www.sac.gov.cn/zhywqlb/zxtz_823/201203/t20120307_102697.htm

MIIT news

MIIT released key focus on standardization work of MIIT in 2012

5 parts to elaborate standardization work in 2012:

- 1) To strengthen research on standards, perfect system of technical standards, and consolidate the basis of standardization work
- 2) To strengthen development on standards on key technology, support industrial transformation and upgrading
- 3) Continue to promote international standardization work, to promote international competitiveness of sectors

- 4) To promote implementation of standards, to improve quality of industrial products
- 5) To perfect working system, mechanize and environment

For more information please visit:

MIIT released notice on First Batch of Development & Revision Working Plan on Sector Standards in 2012

Within this first batch working plan, there are 382 new standards needed to be developed, 166 standards needed to be revised, total 548 standards.

Sector	Total	Standards			
		Compulsory	Voluntary	Development	Revision
	548	4	544	382	166
Steel	52	0	52	45	7
Machinery	3	0	3	3	0
Chemical	52	0	52	42	10
Construction Mater.	25	0	25	22	3
Automobile	15	0	15	10	5
Ship	68	0	68	45	23
Aviation	57	0	57	31	26
Light Industry	37	0	37	30	7
Nuclear Industry	2	0	2	2	0
Electronic	59	4	55	37	22
Telecommunication	178	0	178	115	63

For more information please visit:

<http://www.miit.gov.cn/n11293472/n11293832/n11293907/n11368223/14537125.html>

ITU approves Y. IoT-Overview as the first global standard for IoT area

ITU approves Y. IoT-overview as the first global standard for IoT area, the standard number is Y.2060. This standard was drafted by CATR; including concept, terminology, technical view, characteristics, requirements, reference model and business models of IoT.

For more information please visit:

<http://www.miit.gov.cn/n11293472/n11293832/n11293907/n11368223/14527468.html>

MIIT calls for comments on 11 industry sector standards in telecommunication

Standards:

- Technical requirements on release and control of internet gateway routes
- Technical requirements on flow control on internet gateway
- Quality requirements and test methods on interoperability of MMS
- Technical requirements on monitoring system, anti-pull terminal function of internetwork
- Mobile payment-test methods for mobile terminals based on 13.56 MHz near field communication technology
- Mobile payment-safety test methods for mobile terminals based on 13.56 MHz near field communication technology
- Mobile payment- test methods for smart cards and built-in security module based on 13.56 MHz near field communication technology
- Mobile payment-safety test methods for smart cards and built-in security module based on 13.56 MHz near field communication technology
- Mobile payment- test methods for non-connected terminal based on 13.56 MHz near field communication technology
- Mobile payment- test methods for non-connected RF interface based on 13.56 MHz near field communication technology
- Technical requirements of trusted service management platform

The deadline for comments is 29th March. For more information please visit:

<http://www.miit.gov.cn/n11293472/n11293832/n11293907/n11368223/14498073.html>

MIIT calls for comments on 11 industry sector standards

Standards:

- Specification for design of equipment foundations in chemical industry
- Specification for design of chemical industrial furnace metal material
- Specification for Chemical building, construction drawing content and depth of uniform

- Technical requirements of liquid handling arm engineering
- Automatic installation atlas
- Specification on distributed control system engineering
- Specification on process on installation on rated voltage 26/35kV and accessories for power cables
- Technical specification for application of cement-based wear-resistant materials
- Specification on investment estimate pipeline on building materials industry project
- Specification on design estimate on building materials industry project
- Blister packaging of medical devices with co-extruded film

The deadline for comments is 28th March. For more information please visit:

<http://www.miit.gov.cn/n11293472/n11293832/n12845605/n13916913/14495404.html>

MIIT issues the 12th Five Year Plan for Shipbuilding Industry

MEP news

MEP releases 7 national environmental standards

Standards:

- Technical requirement for environmental labelling products paper shredder (HJ-2509-2012)
- Technical requirement for environmental labelling products voice recorder (HJ-2510-2012)
- Technical requirement for environmental labelling products digital disc player (HJ-2511-2012)
- Technical requirement for environmental labelling products printers, fax machines and multifunction devices (HJ-2512-2012)
- Technical requirement for environmental labelling products video cameras (HJ-2513-2012)
- Technical requirement for environmental labelling products vacuum cleaners (HJ-2514-2012)

These standards will be enforceable per 1 June 2012. For more information, please visit:

http://www.mep.gov.cn/gkml/hbb/bgg/201203/t20120302_224145.htm

MEP releases 6 national environmental standards

Standards

- Technical specifications for pulp and paper industry wastewater treatment (HJ-2011-2012)
- Technical specifications for bag filters of municipal solid waste incineration (HJ2012-2012)
- Technical specification of up-flow anaerobic sludge blanket (UASB) reactor for wastewater treatment (HJ2013-2012)
- Technical specification for biofilter in wastewater bio-film treatment (HJ2014-2012)
- Technical guidelines on water pollution control engineering (HJ2015-2012)
- Terminology of environmental engineering (HJ2016-2012)
- Technical specification for dry-detoxification treatment and disposal of chromium residue (HJ2017-2012)

These standards will be enforceable per 1 June 2012. For more information, please visit:

http://www.mep.gov.cn/gkml/hbb/bgg/201203/t20120302_224145.htm

MEP calls for comments on environment protection standards on guidance of control of technology of vibration and noise

The deadline for comments is the 20th of March. For more information please visit:

http://www.mep.gov.cn/gkml/hbb/bgth/201202/t20120223_223826.htm

MEP releases national environmental quality standards for ambient air quality standards

MEP has published the ambient air quality standard GB3095-2012, which will be enforceable from 1 January 2016. For more information, please visit:

http://www.mep.gov.cn/gkml/hbb/bgg/201203/t20120302_224145.htm

SFDA news

SFDA issues plan for medical devices standardization until 2015

Early March 2012, SFDA has issued a plan foreseeing the publication of medical device standards until 2015. The plan views standards as the basic instrument to upgrade the Chinese medical device industry, and plans to reference some foreseen standards to some international standards.

For more information please visit: <http://www.sda.gov.cn/WS01/CL0845/69410.html>

SFDA publishes a notice on management of registration requirements for medical devices

SFDA has released a notice on the management of registration for medical devices. For more information please visit: <http://www.sda.gov.cn/WS01/CL0845/69467.html>

[CCSA news](#)

CCSA calls for comments on series of ICT standards

The China Communications Standards Association CCSA released a series of calls for comments on the following standards and technical reports:

- Test methods on fixed broadband access speed (deadline: 17th April 2012)
- Technology requirements on mobile internet mobile terminal data synchronization – part 1: general technical requirements (deadline: 17th April 2012)
- Technology requirements on mobile internet mobile terminal data synchronization – part 2: data synchronization protocol (deadline: 17th April 2012)
- Technology requirements on mobile internet mobile terminal data synchronization – part 3: synchronization agreement (deadline: 17th April 2012)
- Technology requirements on mobile internet mobile terminal data synchronization – part 1: Transfer binding agreement (deadline: 17th April 2012)
- -Test methods based on unified IMS multimedia telephony services (Phase 1) –Part 1: Basic service and required supplementary services- draft for approval (deadline: 9th April 2012)
- Technical requirements of mobile open internet services description (deadline: 9th April 2012)

For more information, please visit: http://www.ccsa.org.cn/tc/all_baopi_list.php

CCSA calls for comments on series of ICT standards

The China Communications Standards Association (CCSA) released a series of calls for comments on the following standards and technical reports:

- Communications network equipment, removable design specifications (deadline: 27 March 2012)
- Communication terminal products detachable design specifications (deadline: 27 March 2012)
- Regional Space emergency communication system technical requirements (deadline: 27 March 2012)
- SDH digital microwave communications equipment and system technical requirements and test methods (deadline: 27 March 2012)
- Spread spectrum digital microwave communications equipment and system technical requirements and test methods (deadline: 27 March 2012)

For more information, please visit: http://www.ccsa.org.cn/tc/all_baopi_list.php

Other news

CBFIA calls for comments on the industrial standard for L(+) Sodium Lactate

The China Biotech Fermentation Industry Association (CBFIA) has released a call for comments on the Industrial Standard for L(+) Sodium Lactate. The deadline for comments is 13 April 2012. For more information please visit:
